

Weekly report

1 Done

1.1 After reading some papers about how to resolve privacy issues in network data, we come up with a preliminary plan. The result has been summarized into a slide.

1.2 I have discussed with Jia-Kai on evaluation.

We can provide evaluation though the form of expert reviews.

Thus, we need to invite some professionals who need to share sensitive data or analyze related data. However, I have not found a person who meets the requirements.

1.3 Project exercise:

- Learning about github.
- Some simple algorithm exercises

1.4 I have finish the section of monography.
